MSCS is the symbiosis of medical procurement and consumer-facing innovation

OUR STORY

Founded by Marco Illy, former member of the Executive board at Credit Suisse, MSCS has served organizations worldwide in procuring reliable medical equipment and developing consumer-facing products & services for breakthrough innovations within the global medical and textile market.

OUR VISION

MSCS endeavors to create a safe and sustainable world within the medical and consumer-facing protective industry. Our goal is to push boundaries of breakthrough innovation and provide swiss-grade, reliable services to our client's requirements.

OUR CAPABILITIES

Through our internal capabilities and global partnerships, we can provide secure and cost-effective medical device allocations, and superior services for the consumer facing industries including product development, marketing, brand expansion, sales and supply chain management.

PARTNER NETWORK

MSCS Nitrile Examination Gloves

YOUR TRUSTED PARTNER IN MEDICAL SUPPLIES

MSCS
The Medical Supply Company of Switzerland

MSCS Nitrile Examination Gloves

The MSCS team carefully sources quality Nitrile Butadiene Rubber to produce an insightfully designed nitrile glove that previously tested to 4 mil and is currently specified and is being produced with a 5 mil (~0.127mm) thickness at the palm and 7+ mil at the fingertips. Our gloves have FDA 510K registration, comply with ASTM D6319, and are certified by respected European Certification bodies such as SGS and SATRA. Our production and quality control procedures are ISO certified. MSCS' strategic partner, Sinotrans, a heavy-weight in logistics and transportation in Asia, also allows our MSCS team to overcome any logistical hurdles and ensure the timely delivery of our nitrile gloves in and from China and throughout the world.
